SuperTRUMP Oracle Lease & Finance Management Server

Realize the True Potential of OLFM

A Best-In-Breed Partnership

For over a decade, Ivory and Oracle have been working together to provide seamless integration and support between SuperTRUMP and Oracle Lease & Finance Management (OLFM).

Accounting and Rebooking Made Easy

SuperTRUMP OLFM Server powers your Oracle Lease & Finance Management solution with the ability to account for complex transactions, including: variable rates, rebooking and residual accretion accounting.

SuperTRUMP Oracle Lease & Finance Management Server

Combine the Power of SuperTRUMP with Your OLFM Solution

Each year, top equipment finance companies use SuperTRUMP to price tens of billions of dollars in equipment financing globally or worldwide. Now, with SuperTRUMP Oracle Lease & Finance Management (OLFM) Server, you can integrate the full power of SuperTRUMP into your OLFM solution for complete, accurate, and flexible accounting.

Book Any Transaction:	Make Mid-Term Adjustments:
<ul style="list-style-type: none">◆ Variable rates◆ Subsidies◆ Delayed funding◆ Uneven rents◆ Interim payments◆ Stub payments	<ul style="list-style-type: none">◆ Terminations◆ Partial terminations◆ Re-pricing◆ Adding assets

Make Fast, Accurate Mid-Term Changes

- ◆ Generate accurate, consistent FASB-compliant accounting for any mid-term change, including: terminations/partial terminations, addition of assets, floating rate adjustments, and restructures
- ◆ Eliminate error prone manual processes

Generate Accurate, Flexible Accounting Output

- ◆ Create fast, transparent asset-level accounting, even when the original deal is priced at the contract level
- ◆ Implement industry best practices for a wide range of accounting processes
- ◆ Keep OLFM up-to-date on revised accounting rules from SuperTRUMP OLFM Server
