

CUSTOMERS THAT TRUST US

Fast. Accurate. Analytical.

A business intelligence and data analytics software tool for lease and loan portfolios designed specifically for the equipment finance industry.

Optimize portfolio profitability by performing a broad spectrum of financial analyses on all of your portfolio data.

Accurately forecast future activities by identifying historical trends and extrapolating insights.

Analyze transactions in multiple ways by utilizing easy-to-use analytics and segmentation tools.

Run What-if Scenarios

SuperTRUMP Portfolio Intelligence provides “what-if” scenarios, empowering you to better understand and manage the key risk factors in your equipment lease and loan portfolio.

Start with existing transactions, then change assumptions and see income, tax deferrals, and yields change on your dashboard.

Portfolio Syndication

Syndicate a portfolio for sale or evaluate a portfolio for purchase in a matter of minutes with advanced syndication tools.

Identify deals that meet your portfolio buying and selling criteria with extensive analytical options — static pool analysis, sensitivity analysis, or what-if scenarios — delivered via dashboards and reports.

Comprehensive Analysis

Data derived from SuperTRUMP Portfolio Intelligence allows you to measure portfolio profitability by segment, customer, sales professional, financial product, credit, channel or geography across all transactions.

Evaluate individual transactions, segments of a portfolio or an entire portfolio using the same calculation engine as all SuperTRUMP products to ensure accuracy and consistency across every lease or loan.
