

CUSTOMERS THAT TRUST US

Consistent. Accurate. Integrated.

SuperTRUMP for Salesforce models and prices complex leases and loans in Salesforce with easy access to customer data, transaction history and Salesforce reports.

Achieve quoting and processing efficiencies by using SuperTRUMP for Salesforce — one access point and no transferring of data.

Profit from the Salesforce ecosystem with SuperTRUMP for Salesforce's integration with other applications such, as Conga Composer for document management.

Benefit from instant visibility into pipeline opportunities, previously issued pricing quotes and executed transactions — all stored in Salesforce.

Efficient Workflow

SuperTRUMP for Salesforce uses native Salesforce workflows, moving deals through your processes quickly.

All transaction history is saved at your fingertips — revising a quote is easy and error-free.

Standardized Customer Reporting

SuperTRUMP industry reports combined with Salesforce reporting tools give you all the information you need.

Integrated data derived from combined reporting and metrics gives you a complete view into your customer profile.

Useful Information

Access complete information about a customer, their history and their risk profile, all while preparing a lease or loan quote.

Quotes are prepared using the SuperTRUMP calculation engine and are saved to a common database so you can view your quotes in SuperTRUMP Desktop or Salesforce1.
