

SuperTRUMP Oracle Lease & Finance Management Server

Make the Right Moves

A Best-In-Breed Relationship

ORACLE®

For over a decade, Ivory Consulting and Oracle have been working together to provide seamless integration and support between Oracle Lease & Finance Management (OLFM) and SuperTRUMP Accounting Server for OLFM.

Integrate the powerful SuperTRUMP accounting engine with your OLFM application to utilize complex lease and loan accounting.

Implement equipment finance industry best practices for a wide range of accounting practices.

Model and account for complex situations, such as variable interest rates, mid-term rebooking, and residual accretion, using accounting provided by the SuperTRUMP accounting engine.

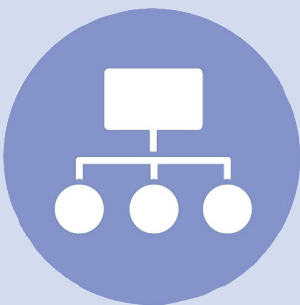

Make Fast, Accurate Mid-Term Changes

Produce accurate and consistent FASB-compliant accounting for any mid-term transaction changes, including terminations and partial terminations, addition of assets, floating interest rate adjustments, and restructures.

Generate Accurate, Flexible Accounting Results

Keep your OLFM application up-to-date with the most current accounting rules using the SuperTRUMP accounting engine. Create fast, transparent, contract-level and asset-level accounting, even when the original deal is priced at the contract level.

Designed for Your Business

Whether integrating the SuperTRUMP accounting engine into your OLFM application or customizing your user interfaces to boost employee productivity, our engineers can create a SuperTRUMP accounting solution designed to meet the accounting requirements of your unique financial products offered to your global customers.
