

Web/Salesforce Developer

Position Description

Ivory Consulting Corporation (Ivory) is looking for a talented web developer with experience on the Salesforce platform. As part of the Ivory engineering team, the ideal candidate will contribute to the design, development, and delivery of Ivory Web and Salesforce products. Success in the role requires a self-starter with a passion for solving problems. We're a small, tight-knit team of dedicated people, so good communication and people skills are a must. Compensation is comprised of salary, quarterly bonuses, and tax-deferred profit sharing, but no equity. Medical and dental premiums are paid by Ivory. H1B sponsorship not available. This is a full time position which can be based at our office in Walnut Creek, CA or remotely at your home office.

Key Responsibilities

- Developer on web and Salesforce projects
- Work directly with clients to define requirements and translate those requirements into design and technical specifications
- Help define and prioritize the Ivory web and Salesforce development roadmap

Requirements

- BA/BS/MS in Computer Science or equivalent experience
- 3+ years of web development experience with React, JavaScript, HTML5, and CSS3
- 1+ years of Salesforce development experience with Visualforce, Lightning Components, Apex, and Salesforce DX
- Good understanding of user interface design principles
- Experience soliciting, analyzing, and documenting project requirements

Soft Skills

- Ability to work within deadlines to accomplish project deliverables
- Strong teamwork and interpersonal skills

How to Apply

To apply for this position, email your resume to careers@ivorycc.com. Please include links to web pages, code, or production-level work on your GitHub account that demonstrate your skills.
